

Syntron Industries Pvt.Ltd.

Material Safety Data Sheet

Version No.- 01

Revision Date: 01 July 2022

SECTION 1: Identification of the substance/mixture and the company/undertaking

1.1 Product identifier

Trade Name: **CHEMTRON - FS**
[Formaldehyde Sodium Bisulfite]
Product Code: **CMT - 1001**
Synonyms: Hydroxy Methanesulfonic Acid
CAS No.: 870-72-4

1.2 Relevant identified uses of the substance or mixture and uses advised against.

Uses of the substance

» **CHEMTRON - FS** used as an additive intermediate in Nickel electroplating brightener and also used in the preparation of oil-soluble sulfonate additives used in improving anticorrosive, dispersant and antioxygenic properties of lubricant oils.

» Restrictions on use: No information available

Remarks

» Risk assessments should be conducted prior to handling this product/material.

1.3 Details of the supplier of the safety data sheet.

Company

Syntron Industries Pvt. Ltd.
411/5, Phase II , G.I.D.C. Vatva,
Ahemdabad – 382445 GUJARAT. INDIA
Tel. : + 91 79258 33039

E-mail address

Surfactants@syntronindustries.com

1.4 Emergency telephone number

India Tel. No.: + 91 79258 33039

Disclaimer

The ® indicated a registered Trademark in the India and ™ indicates a trademark in the India. The mark may also be registered, subject of an application for registration, or a trademark in other country.

SECTION 2: Hazards identification

Physical hazards	Not classified.
Health hazards	Not classified.
Environmental hazards	Not classified.

OSHA defined hazards	Not classified.
Label elements	
Hazard symbol	None.
Signal word	None.
Hazard statement	The substance does not meet the criteria for classification
Precautionary statement	
Prevention	Observe good industrial hygiene practices.
Response	Wash hands after handling.
Storage	Store away from incompatible materials.
Disposal	Dispose of waste and residues in accordance with local authority requirements.
Hazard(s) not otherwise classified (HNOC)	None known.
Potential Health Effects	
Eye:	May cause eye irritation.
Skin:	May cause skin irritation.
Ingestion:	May cause irritation of the digestive tract. The toxicological properties of this substance have not been fully investigated.
Inhalation:	May cause respiratory tract irritation. The toxicological properties of this substance have not been fully investigated.
Chronic:	No information found.

SECTION 3: Composition /information on ingredients

Chemical Name	CAS No.	Concentration on (%)
Formaldehyde Sodium Bisulphite	870-72-4	95 %

SECTION 4: First aid measure

Description of first measures

General advice	Consult a physician. Show this safety data sheet to the doctor in attendance.
If inhaled	If breathed in, move person into fresh air. If not breathing, give artificial respiration. Consult a physician.
In case of skin contact	Wash off with soap and plenty of water. Consult a physician.
In case of eye contact	Flush eyes with water as a precaution
If swallowed	Never give anything by mouth to an unconscious person. Rinse mouth with water. Consult a physician

Most important symptoms and effects, both acute and delayed To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Indication of any immediate medical attention and special treatment needed No data available

SECTION 5: Firefighting measure

Extinguishing media

Suitable extinguishing media Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

Special hazards arising from the substance or mixture Carbon oxides, Sulphur oxides, Sodium oxides

Advice for firefighters Wear self-contained breathing apparatus for firefighting if necessary

Further information No data available

SECTION 6: Accidental release measure

Personal precautions, protective equipment and emergency procedures: Use personal protective equipment. Keep people away from and be upwind of spill/leak. Entry to non-involved personnel should be controlled around the leakage area by roping off, etc

Environmental precautions: Prevent product from entering drains.

Methods and materials for containment and cleaning up: Sweep dust to collect it into an airtight container, taking care not to disperse it. Adhered or collected material should be promptly disposed of, in accordance with appropriate laws and regulations.

SECTION 7: Handling and storage

Precautions for safe handling: Handling is performed in a well-ventilated place. Wear suitable protective equipment. Prevent dispersion of dust. Wash hands and face thoroughly after handling. Use a local exhaust if dust or aerosol will be generated. Avoid contact with skin, eyes and clothing.

Conditions for safe storage, including any incompatibilities Keep container tightly closed. Store in a cool and dark place. Store under inert gas. Protect from moisture. Store away from incompatible materials such as oxidizing agents. Hygroscopic.

Packaging material: Comply with laws.

SECTION 8: Exposure controls / personal protection

Appropriate engineering controls: Follow safe industrial engineering/laboratory practices when handling any chemical. Install a closed system or local exhaust as possible so that workers should not be exposed directly. Also install safety shower and eye bath.

Personal protective equipment

Respiratory protection: Dust respirator. Follow local and national regulations.

Hand protection: Protective gloves.

Eye protection: Safety glasses. A face-shield, if the situation requires.

Skin and body protection: Protective clothing. Protective boots, if the situation requires.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Appearance	Crystal Powder.
Colour	White
Odour	Pungent.
Odour threshold	No data available.
Ph 1.0 % aq. Soln.	7.0 - 8.0
Melting point	200 °C.
Boiling point	Decomposes
Flash point	184°C
Evaporation rate	No data available.
Flammability (solid, gas)	No data available.
Upper/lower flammability or explosive limits	No data available.
Vapour pressure	No data available.
Vapour density	No data available.
Bulk Density	No data available
Solubility in water	800 g/L (20°C)
Partition coefficient	No data available.
Auto-ignition temperature	500 °C / 932 °F
Decomposition Temperature	No data available.
Viscosity	No data available.
Explosive properties	No data available.
Oxidising properties	No data available.
Solid Content	95 %
Sensitive	Hygroscopic

9.2. Other information

Molecular weight	134.09.
------------------	---------

SECTION 10: Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous Reactions.	No dangerous reaction known under conditions of normal use
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition	No hazardous decomposition products are known.
Products	

SECTION 11: Toxicological information

Acute Toxicity

Product Information Component

Formaldehyde Sodium Bisulphite

LD50 Oral - Rat – Not available

LC50 Inhalation – Not available

Toxicologically Synergistic Products No information available

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Irritation Irritating to eyes, respiratory system and skin

Sensitization No information available

Carcinogenicity No data available.

Mutagenic Effects No information available

Reproductive Effects No information available.

Developmental Effects No information available.

Teratogenicity No information available.

STOT - single exposure No data available

STOT - repeated exposure None known

Aspiration hazard No information available

Symptoms / effects, both acute and delayed No information available

Endocrine Disruptor Information No information available

Other Adverse Effects The toxicological properties have not been fully investigated.

SECTION 12: Ecological information

Ecotoxicity

No data available

Component

Formaldehyde Sodium Bisulphite

Persistence and Degradability Persistence is unlikely

Bioaccumulation/ Accumulation No information available.
Mobility Will likely be mobile in the environment due to its water solubility.

Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

Endocrine disrupting properties No data available

12.6. Other adverse effects

None known.

SECTION 13: Disposal consideration

13.1 Waste Disposal methods

Product Disposal

Prohibition

Do not discharge directly into the environment.

Chemical waste generators must determine whether a discarded chemical is classified as a hazardous waste. Chemical waste generators must also consult local, regional, and national hazardous waste regulations to ensure complete and accurate classification

SECTION 14: Transport information

General

The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA).

14.1. UN number

Not applicable.

14.2. UN proper shipping name

Not applicable.

14.3. Transport hazard class(es)

No transport warning sign required.

14.4. Packing group

Not applicable.

14.5. Environmental hazards

Environmentally hazardous substance/marine pollutant No.

14.6. Special precautions for user

Not applicable

SECTION 15: Regulatory information

National Regulations --

No additional information available

Chemical safety assessment --

No additional information available

SECTION 16: Other information

Key or legend to abbreviations and acronym s used in the safety data sheet

IATA: International Air Transport Association.

IMDG : International Maritime Dangerous Goods.

CAS: Chemical Abstracts Service.

LD 50: Substance that causes 50% (half) death in the test animals group (Median Fatal Dose).

LC 50: Substance concentration causing 50% (half) death in the test animals group.

EC 50: Effective Concentration of the substance causing the maximum of 50% .

GHS: Globally Harmonized System of Classification and labelling of chemical

Packing :-

1. Powder: Available in 20 Kg HDPE BAG
